The subject of history can be very exciting! How is it to watch a film compared to just reading a book with text? Right now, the trend is that young people are increasingly refraining from just reading text. Pictures and films are the main thing. We have to adapt to reality. Slideshows with many pictures teach better. That's the trend, don't go against it! There are thousands in my collection of slide shows. Feel free to look around. It's not worth it to start making your own slide shows for **50 cents per hour!**

Slideshows are effective. You learn faster. The experience is better than just reading texts. The font is easier to read. The slideshow can be shared or shown to large groups, and directly. In my design, the slideshows do not need a speaker for the images.

History and Slides – 2024 April no 5

Welcome to read about exciting history. Slide shows are easier to read than text books alone. Feel free to try it yourself.

My name is Anders Dernback. I have created several thousand slideshows over the years. These do not require a teacher, but can be studied as if it were a picture book with text. Most often the subject is history. I have chosen to let more people benefit from this and read them or have students read them. They can be used for teaching purposes.

"Archology" refers to two distinct concepts. One is a rare synonym for archeology, the study of the origins of things, or the science of government. The other, and more prominent meaning, is a portmanteau of "architecture" and "ecology," referring to the field of creating architectural design principles for densely populated and ecologically low-impact human habitats. This concept was coined by architect Paolo Soleri and is often associated with large, self-contained structures that minimize environmental impact.

Genocide

American Indians experienced some of the worst massacres and grossest injustices in history while Ulysses S. Grant was in office.
Grant took office in 1869 with plans to drastically reform federal Indian policy. In his inaugural address, the 18th president pledged to rethink the management of Natives and resolve problems in the deeply corrupt Indian Bureau.
"The proper treatment of the original occupants of this land the Indians (is) one deserving of careful study," he said in his inaugural address. "I will favor any course toward them which tends to their civilization and ultimate citizenship."
Grant realized that his expansionist goals required the removal of Indians from desirable land. His Indian Peace Policy, designed to reform the Indian Bureau and remove corrupt agents, also called for rigorous agricultural training on reservations and established schools and churches that would transform Indians into Christian citizens.
Indian chiefs Sitting Bull, Gall, Chief Joseph, Geronimo and Cochise led their people into wars against the United States in efforts to preserve their land and ways of life. In 1870, Oglala Chief Red Cloud visited Grant at the White House, where he condemned Indian policy and described his peoples' suffering.
Two years into his presidency, Grant signed the Indian Appropriations Act of 1871, which ceased federal recognition of tribes as entities "with whom the United States may contract by treaty." The act ended the government's treaty-making process and the practice of acknowledging tribes as sovereign nations. It also signaled the start of official Indian assimilation policies.

The USA violates 100 of rights for prisoners and rights for humanity. Read the following rules and it is clear that keeping prisoners in Florida in a swamp with high temperatures and total isolation, substandard surface to stay on, substandard minimum standards within most rules in conventions. The accommodation is at a level reminiscent of German camps in the years 1933 - 1945. Exception gassing of prisoners and burning of the bodies. Alligator Alcatraz is similar to basement storage in Sweden and where discarded objects or other things are stored, but never animals or people. Building these prisons indicates a total lack of empathy, which is characteristic of a Sociopath. It puts a stamp on the USA to act similar to the Nazi regime in Germany in the years 1933 - 1945.

Donald Trump future (English)

Donald Trump's presidency was a tumultuous and controversial period in American history. His first 100 days in office set the tone for a disastrous term that would see him become the most unpopular and inept leader the nation has ever seen. This paper will explore the key events and policies that led to Trump's downfall and eventual trial for treason.

Deportation of US Citizens to Concentration Camps: One of Trump's most egregious actions was the deportation of US citizens, including legal permanent residents and even natural-born American citizens, to makeshift concentration camps set up in El Salvador. The conditions in these camps were worse than those in Nazi Germany during World War II. Detainees faced overcrowding, poor sanitation, inadequate food and water, and physical and sexual abuse at the hands of guards. Many died under these inhumane conditions.

The deportation policy was a clear violation of the Constitution and international human rights law. Trump ignored rulings from federal courts that attempted to block his executive orders. He replaced judges who ruled against him with hand-picked loyalists who would rubber-stamp his illegal actions. The media was silenced through intimidation and censorship.

Young Turks
was a political reform movement in the early 20th century that consisted of Ottoman exiles, students, civil servants, and army officers. They favoured the replacement of the Ottoman Empire's absolute monarchy with a constitutional government. Later, their leaders led a rebellion against the absolute rule of Sultan Abdul Hamid II in the 1908 Young Turk Revolution.

created to prevent a person who wanted to introduce a dictatorship and looked after his own interests. This is also known from a letter from President George Washington. Since Donald Trump, through a number of irregular decisions and these clearly show plans to make himself a dictator, is already violating the constitution and that should be enough to impeach him. Otherwise, the constitution is written incorrectly, or those who sit in the Senate and House of Representatives are too cowardly. The representatives who do not try to prevent Donald Trump will have played the same role in history as those who did nothing to stop Adolf Hitler. So it must be that they think like Donald Trump or see other advantages in being close to a dictator. They may like power or their own economic advantages. You can bundle up the judgment about these cowards later in new history books. "These traitors to the American Constitution sat there helpless and just watched and let it happen. Time to wake up, you still have time to avert the biggest scandal in US history. Trump and Musk are planning to form a new, larger USA. Canada and Greenland will be included. In the longer term, Mexico too. The idea that Technocrats with extreme wealth know better is the basis for the plan. It is completely inspired by Elon Musk, who in turn was inspired by a book from 1855 and reworked in the 1920s. Sectors have already been formed with such ambitions and they have been banned. Elon Musk has dusted off the plans and only a blind and deaf person does not see or hear how Nazi-inspired plans have already begun. The plan includes dismantling important public health functions. If you're a little confused about what Musk is trying to achieve with DOGE, here's the breakdown:

Elon Musk and Peter Thiel cofounded a company that became PayPal.

Other executives at PayPal went on to found or lead other huge tech companies including YouTube, LinkedIn, Reddit, Affirm, and many VC firms.

This group became known as the PayPal mafia because they exerted an outsized influence on Silicon Valley.

Peter Thiel mentored a young JD Vance and helped him get set up in his first VC firm.

Peter Thiel and the PayPal mafia funded JD Vance's successful Senate run. Amazing because he had

to choose JD Vance as VP in exchange for funding his presidential campaign.

The three of them, plus a lot of other tech billionaires subscribe to an ideology called the Dark Enlightenment espoused by this super weird, creepy dude: Curtis Yarvin aka Mencius Moldbug.

Yarvin preaches that the media and academia represent "The Cathedral" that secretly controls power and must be dismantled.

He advocates for a corporate run, monarchy, led by a CEO-Dictator.

Says that Democracy is an "outdated software" and openly opposes it and that:
- Government agencies should be dismantled and The U.S. should be broken up into "patchworks" controlled by tech oligarchs.
- That the elite tech billionaires should

dumb to govern themselves.

The strategy is to gut the government via R.A.G.E - Retire All Govt Employees to make government incapable of operating.

Then to replace government with private corporations.

To eliminate elections because they are "obsolete"

To use distraction and chaos to prevent public resistance.

Trump is their useful tool to be disposed of as soon as they can wrest control.

This is why Elon wears a black MAGA hat. They are not Trump supporters, they are "Dark MAGA"

This isn't a hypothetical. The plan is already in motion:

Musk plan and inspiration book

eyes of the whole world. The evidence is overwhelming. The hijackers are not even trying to hide their plans or actions already taken towards the goal. Abolish democracy in the United States and introduce a Dictatorship. But they do not have control over the armed forces and the Generals, That is the chance to avert the coup as soon as possible. The Generals must then decide whether to intervene or accept a Dictatorship in the United States soon.
David Vandygriff
If you're a little confused about what Musk is trying to achieve with DOGE, here's the breakdown: Elon Musk and Peter Thiel cofounded a company that became PayPal. Other executives at PayPal went on to found or lead other huge tech companies including YouTube, LinkedIn, Reddit, Affirm, and many VC firms.
This group became known as the PayPal mafia because they exerted an outsized influence on Silicon Valley. Peter Thiel mentored a young JD Vance and helped him get set up in his first VC firm. Peter Thiel and the PayPal mafia funded JD Vance's successful Senate run. Amazing because he had absolutely zero political experience. Thiel and Musk all but forced Trump to choose JD Vance as VP in exchange for funding his presidential campaign.
The three of them, plus a lot of other tech billionaires subscribe to an ideology called the Dark Enlightenment espoused by this super weird, creepy dude: Curtis Yarvin aka Mencius Moldbug. Yarvin preaches that the media and academia represent "The Cathedral" that secretly controls power and must be dismantled.
He advocates for a corporate run, monarchy, led by a CEO-Dictator.
Says that Democracy is an "outdated software" and openly opposes it and that:
This isn't a hypothetical. The plan is already in motion:
- Musk, Thiel, and their network are actively dismantling democratic institutions.
- JD Vance, the "MAGA heir," is being positioned to help implement this transition.
- The public is too distracted to realize what's happening.
- If successful, democracy in America will be permanently replaced by a corporate-run authoritarian state.
- That's it. Now that you understand that you can see how everything that's happening fits within that lens.
- Now the only question is what do we do about it?
- Anders Dornback
- Yes thats true! A masterplan, and a crime. It is a case for the Generals. Better to perform a new crime, to arrest those behind the plan behind the masterplan, compared to let it happen. New elections after 6 months, and the Generals steps down.

Thomas Matthew Crooks (September 20, 2003 – July 13, 2024) was an American man who attempted to assassinate then-former U.S. president Donald Trump, who at the time was the presumptive Republican Party nominee for the 2024 presidential election. On July 13, 2024, at a rally near Butler, Pennsylvania, Crooks shot at Trump with an AR-15–style rifle from a nearby rooftop while Trump was giving a speech. Crooks wounded Trump's ear and killed one attendee while critically injuring two others before being killed by a Secret Service

Sweden ceased to be a country
Fantasy about how Sweden is divided. Northern Sweden becomes Russia, central Norway and the southern parts become Denmark.
Sweden was historically not a country, but became a united country. Sweden and Finland were a single country for over 600 years. Denmark owned parts of southern Sweden until the 17th century. Russia has had near sovereignty over Finland, starting in the 19th century.
Sweden after the death of Charles XII in Norway was the end of a "Great Power era". In 1905, Norway broke away from a previous union with Sweden. Surely a few believe that Sweden could disappear as a nation? That is why it is particularly fascinating to read about how the risk of that could increase.

For fifty years he has had a great interest in the subject of history. The computer program Power Point is also an interest. The combination resulted in several thousand slide shows on the subject of history. Now he is making an attempt to create a book that is a fantasy story about how Sweden ceases to exist as a nation.

PEPFAR, established in 2003 by President George W. Bush currently provides HIV treatment to over 20 million people, including more than 500.000 children in 55 countries. Over its lifetime, the programme is credited with saving 26 million lives. The programme accounts for over 90% of pre-exposure prophylaxis (PrEP) enrollments – which prevent HIV transmission and are essential to controlling the pandemic – and supports 342,000 health workers directly. UNAIDS estimates show there were 52% fewer new HIV infections in 2023 than in 2010 across PEPFAR-supported countries, compared with a 39% reduction globally. PEPFAR's annual budget is US$6.5 billion. In 1813 at the age of fifteen, he entered military service as a cadet in the Grodno Hussar Regiment. He rose through the ranks of the Russian army and first saw action in the 1813 Battle of Leipzig. The tourism organization NYC & Company has calculated that New York will receive around 700,000 fewer tourists as a result of Trump becoming president and his travel ban rules. According to the calculation, the city will lose SEK 18,000 per visitor plus other negative effects.
And for the US as a whole, the reduced tourism could lead to the country losing up to SEK 100 billion, according to an estimate by Oxford Economics, Di writes.

The election liquidated what was left of Weimar democracy and reduced the Reichstag to a mere stage for Hitler's speeches. It only met sporadically until the end of World War II, held no debates and enacted only a few laws, while the Reichsrat was abolished in February 1934 by the Law on the Abolition of the Reichsrat.
Deaths directly caused by the war (including military and civilian fatalities) are estimated at 50–56 million, with an additional estimated 19–28 million deaths from war-related disease and famine.

The Chase
by Arthur Ripley
Publication date 1946
Usage Public Domain
Returning a lost wallet gains unemployed veteran Chuck Scott (Robert Cummings) a job as chauffeur to Eddie Roman (Steve Cochran), a seeming gangster whose enemies have a way of meeting violent ends. The job proves nerve-wracking, and soon Chuck finds himself pledged to help Eddie's lovely, fearful, prisoner-wife Lorna (Michèle Morgan) to escape.
The result leaves Chuck caught like a rat in a trap, vainly seeking a way out through dark streets. But the real chase begins when the strange plot virtually starts all over again...

Christian VII of Denmark
Christian VII (29 January 1749 - 13 March 1808) was a monarch of the House of Oldenburg who was King of Denmark-Norway and Duke of Schleswig and Holstein from 1766 until his death.

Based on the results of the study, we can see that the majority of the prostitutes who were registered by the criminal police in Malmö had moved from their places of birth to Malmö. The women came from several parts of Sweden but mainly from Svealand and Götaland, with the exception of the women who moved to Malmö from Denmark and Norway and those who were born in Malmö. The majority of women who succeeded in freeing themselves from prostitution did so by contracting marriage. In the results part of the study, a number of women and their fates are highlighted and we can see that they are freed from the institution of the inspection agency through marriage. In some of the cases we can also see that the women either alone or with the respective moved to America.

The similarities are obvious if you compare Hitler's criminal gang that cost the world 60 million dead. Curiously, the German people elected a person who participated in a coup d'état in 1923 and was imprisoned for the failed coup attempt. In the 1933 election, SA gangs went around intimidating and influencing eligible voters. Hitler got just over 33% of the vote, and it was the German generation born from 1850 to 1913 who bore the responsibility

In September 2024, American right-wing politicians and media figures amplified false claims that Haitian immigrants in Springfield, Ohio, were illegally abducting pets such as cats and dogs and eating them.
Springfield became a popular destination for Haitian migrants in the 2020s, leading to racial tensions in the city. The claim about immigrants eating pets began when a member of a local Facebook group said a neighbor's daughter's friend's cat was eaten by immigrants. It spread quickly among far-right and neo-Nazi groups, and was then amplified by prominent figures in the American right, most notably Republican presidential nominee Donald Trump, his running mate JD Vance, and X owner Elon Musk.

Lady Godiva
Godiva was the wife of Leofric, Earl of Mercia. They had nine children; one son was Ælfgar. Godiva's name occurs in charters and the Domesday survey, though the spelling varies. The Old English name Godgifu or Godgyfu meant "gift of God"; 'Godiva' was the name's Latinised form. Since the name was a popular one, there are contemporaries of the same name.

1. Get revenge on your opponents as soon as possible
2. Only hire people who like me.
3. Fire everyone who doesn't share my opinion.
4. Enact new laws that restrict the Media's freedom to write any crap about me.
5. Establish a new Court that only deals with cases that I am involved in and quintuple the salaries of all Judges who like me and want to start working there.
6. Build a wall along the border between the US and Canada, to protect the US from labor shortages, when much of the best labor will flee to Canada if I win the Presidential Election.
7. Start a new TV channel that mainly shows all my previous public appearances in replays.
8. Work for compulsory uniforms in all schools.
9. Invite Vladimir Putin with friends to the United States, spare no expense for the visit.

The Dernback Collection with slideshows is constantly growing.
Here are some categories of topics that appear in the slideshows.
There are probably few collections where only one private person has made 1,890 slideshows available on the Internet and where the subject is history, as well as in Swedish and English.
Payhip is a service similar to an e-commerce store and only 6% of 1,890 items have a price and that
is 96% which is free. Not entirely unreasonable in light of the fact that the collection took approximately three full working years to create.
The collection is also still growing.
Strange but only 1% of visitors download from this unique collection. Please increase the pace!

Bildspel att ladda hem

Dernback Collection med bildspel växer ständigt. Här är några kategorier av ämnen som visas i bildspelen.

Troligen är det få samlingar där bara en privatperson har gjort 1 890 bildspel tillgängliga på Internet och där ämnet är historia, samt på svenska och engelska.

Payhip är en service som liknar en e-handelsbutik och bara 6 % av 1 890 objekt har ett pris och det är 96 % som är gratis. Inte helt oskäligt mot bakgrund av att samlingen tog ungefär tre hela arbetsår att skapa. Samlingen växer dessutom ännu.
Märkligt men endast 1 % av besökare laddar hem från denna unika samling. Öka gärna takten!

Från Nya Sverige till Nutida Amerika: En Djupdykning i det Svenska Koloniala Arvet

Historisk översikt

År 1637 seglade två skepp från Sverige mot Nordamerika för att grunda en svensk koloni vid Delawareflodens utlopp. Kolonin, som fick namnet Nya Sverige, etablerades 1638 efter markköp från Lenapefolket och varade fram till 1655 då den togs över av Nederländerna. Under denna period var kolonin en del av Sveriges försök att expandera sin globala närvaro och handel.

Rudolph Rummel
1932 - 2014
was an American political scientist and professor at the Indiana University, Yale University, and University of Hawai'i. He spent his career studying data on collective violence and war with a view toward helping their resolution or elimination. Contrasting genocide, Rummel coined the term democide for murder by government, such as the genocide of indigenous peoples and colonialism, Nazi Germany, the Stalinist purges, Mao Zedong's Cultural Revolution, and other authoritarian, totalitarian, or undemocratic regimes, coming to the conclusion that democratic regimes result in the least democides.

Timeline very early Australian history Facebook aproved (English)

The prehistory of Australia is the period between the first human habitation of the Australian continent and the colonisation of Australia in 1788, which marks the start of consistent written documentation of Australia. This period has been variously estimated, with most evidence suggesting that it goes back between 50,000 and 65,000 years. This era is referred as prehistory rather than history because knowledge of this time period does not derive from written documentation. However, some argue that Indigenous oral tradition should be accorded an equal status.
A hunter-gatherer lifestyle was dominant until the arrival of Europeans, although there is evidence of land management by practices such as cultural burning, and in some areas, agriculture, fish farming, and permanent settlements.
The earliest evidence of humans in Australia has been variously estimated, with most agreement as of 2018 that it dates from between 50,000 and 65,000 years BP

Karl Plagge
Karl Plagge 10 July 1897 – 19 June 1957), originally an engineer, was a German Army officer, who rescued Jews during the Holocaust in Lithuania by issuing work permits to non-essential workers. A partially disabled veteran of World War I, Plagge studied engineering, and joined the Nazi Party in 1931 in hopes of helping Germany rebuild from the economic collapse caused by the draconian terms of the Treaty of Versailles. After being dismissed from a position of lecturer for being unwilling to teach racism, and his opposition to Nazi racist policies, he stopped participating in party activities in 1935, and left the party when the war broke out.

THE FAIRY TALES OF HANS CHRISTIAN ANDERSEN
THE REAL PRINCESS

THERE was once a prince who wished to marry a princess; but he wanted her to be a real princess. He travelled all round the world to find such one, but there was always something wrong. Not that there was any lack of princesses, but as to whether or no they were real ones, he could not always make out. There was sure to be something in the way that was not quite satisfactory. At length he returned home, quite out of spirits, for he wished so to find a real princess.

governments during the 20th century. Rummel stated that his 272 million death estimate was his lower, more prudent figure, stating that it "could be over 400,000,000." Rummel came to the conclusion that a democracy is the form of government which is least likely to kill its citizens because democracies do not tend to wage wars against each other.
He summed up his research in Power Kills (1997). His other works include Lethal Politics: Soviet Genocides and Mass Murders 1917–1987 (1990), China's Bloody Century: Genocide and Mass Murder Since 1900 (1991), Democide: Nazi Genocide and Mass Murder (1992), Death by Government: Genocide and Mass Murder Since 1900 (1994), and Statistics of Democide (1997). Extracts, figures, and tables from the books, including his sources and details regarding the calculations, are available online on his website.
Rummel ansåg att det finns stark korrelation mellan demokrati och fred - av de 353 krig som utkämpats sedan 1816 skulle inget ha stått mellan demokratier, vilket enligt kritiker mest beror på att "demokrati" inte har någon enhetlig definition.

Romeo and Juliet is a tragedy written by William Shakespeare early in his career about two young Italian star-crossed lovers whose deaths ultimately reconcile their feuding families. It was among Shakespeare's most popular plays during his lifetime and, along with Hamlet, is one of his most frequently performed plays. Today, the title characters are regarded as archetypal young lovers.

In 1908-1909, Mary Blair Beebe and her husband, C. William Beebe made two private expeditions to Venezuela and British Guiana, exploring and collecting live birds for the New York Zoological Park. They then collaborated on a book about their "search for a wilderness," with Mary Blair doing the bulk of the writing. The Beebe's supplemented tropical birding with visits to gold mines in British Guiana and a lake of pitch, which was being mined in the middle of the Venezuelan jungle.

Emily Brontë
Agnes Mary Frances Robinson (1857 - 1944)
Emily Brontë (1818-1848) is best known for her only novel, "Wuthering Heights." She was born in Yorkshire, northern England, where her father was an Anglican curate. When Brontë was three years old her mother died of cancer. At the age of six she joined her three sisters briefly at the Clergy Daughters' School, where privations and abuse contributed to the deaths of two of them. Her elder sister, Charlotte, immortalized this terrible place in "Jane Eyre." In 1846 Emily Brontë, under the pseudonym Ellis Bell, published a selection of her poetry. In 1847 appeared her dark, gothic novel, "Wuthering Heights," with its Byronic anti-hero, Heathcliff. Brontë was shy, even reclusive, and never married. In the fall of 1848 she fell ill with inflammation of the lungs, probably due to rapidly-progressive tuberculosis, and died in December of that year, aged twenty-nine. This is a short biography of Brontë written by the British poet, novelist, and critic, Agnes Mary Frances Robinson (1857-1944). (Pamela Nagami)

US War Crimes killed 128 000 people (Rummel)
The Philippine–American War or the Filipino–American War (modern Filipino: Digmaang Pilipino–Amerikano), previously referred to as the Philippine Insurrection or the Tagalog Insurgency by the United States, was an armed conflict between the First Philippine Republic and the United States that lasted from February 4, 1899, to July 2, 1902. While Filipino nationalists viewed the conflict as a continuation of the struggle for independence that began in 1896 with the Philippine Revolution against Spain, the U.S. government regarded it as an insurrection. The conflict arose when the First Philippine Republic objected to the terms of the Treaty of Paris under which the United States took possession of the Philippines from Spain, ending the Spanish–American War.
12,000 killed (Philippine claim), 16,000-20,000 killed (American claim)
Filipino civilians: 200,000–1,000,000 died, most because of famine and disease; including 200,000 dead from cholera.

Victory at Narva
The Battle of Narva Swedish: Slaget vid Narva) on 30 November [O.S. 19 November] 1700 (20 November in the Swedish transitional calendar) was an early battle in the Great Northern War. A Swedish relief army under Charles XII of Sweden defeated a Russian siege force three to four times its size. Before, Charles XII had forced Denmark–Norway to sign the Treaty of Travendal. Narva was not followed by further advances of the Swedish army into Russia; instead, Charles XII turned southward to expel August the Strong from Livonia and Poland-Lithuania. Tsar Peter the Great of Russia took Narva in a second battle in 1704.

Reduction of Gustav I of Sweden
The Reduction of Gustav I of Sweden, was an important reform during the Protestant Swedish Reformation, in which king Gustav I of Sweden ordered a reduction in church property and the return of land to the crown, making the national church dependent upon the monarch and effectively ending Swedish monastic life. This organised confiscation and transfer of the property of the Swedish Catholic church to the Crown - initiated at the Västerås riksdag of 1527 and finalised in the 1540s - was the economic phase of the Swedish Reformation and was followed by the Örebro Synod, which dealt with theological matters.

1621 April 5, The Mayflower sets sail from Plymouth, Massachusetts on a return trip to England.
Mayflower was an English ship that transported the first English Puritans, known today as the Pilgrims, from Plymouth, England to the New World in 1620
According to author Charles Banks, the officers and crew of Mayflower consisted of a captain, four mates, four quartermasters, surgeon, carpenter, cooper, cooks, boatswains, gunners, and about 36 men before the mast, making a total of about 50. The entire crew stayed with Mayflower in Plymouth through the winter of 1620–1621, and about half of them died during that time. The remaining crewmen returned to England on Mayflower, which sailed for London on April 5, 1621

JOHN BULL
John Bull is a national personification of the United Kingdom in general and England in particular, especially in political cartoons and similar graphic works. He is usually depicted as a stout, middle-aged, country-dwelling, jolly and matter-of-fact man.
John Bull originated as a satirical character created by Dr John Arbuthnot, a friend of Jonathan Swift and Alexander Pope. Bull first appeared in 1712 in Arbuthnot's pamphlet Law is a Bottomless Pit.[2] The same year Arbuthnot published a four-part political narrative The History of John Bull. Starting in the 1760s, Bull was portrayed as an Anglo-Saxon country dweller. Bull is usually depicted as a stout man in a tailcoat with light-coloured breeches and a top hat.
